

Campus360 – Smart Campus Management Platform

Campus360 is a centralized campus management platform that connects students and administration by bringing important campus services into one place. It focuses on improving communication, accessibility, and management of daily campus activities with only necessary AI integration.

1. Login & Role-Based Access System

The platform will have a secure login system for different users.

Student:

- Access personal dashboard
- View notices and events
- Report lost/found items
- Submit complaints
- Explore campus gallery

Admin:

- Upload notices
- Add upcoming events
- Manage complaints
- Manage gallery content

User details like name, course, semester, and department help provide a personalized experience.

2. Student Dashboard

The dashboard acts as the central place for students to access campus information.

It displays:

- Latest notices
- Upcoming events
- Important announcements
- Complaint status
- Quick access to campus services

This saves students time by avoiding multiple sources for information.

3. AI Notice Summarizer

AI is used only for making notices easier to understand.

Admin uploads a notice, and AI helps by:

- Creating a short summary
- Extracting important dates
- Highlighting deadlines
- Identifying important instructions

Example:

A long workshop notice becomes:

AI Workshop

- Date: 5 July
 - Venue: Lab 18
 - Time: 11 AM
 - Requirement: Bring laptop
-

4. AI Event Assistant

AI helps students quickly find information about upcoming events.

Students can ask:

- "What events are coming this month?"
- "Are there any AI workshops?"
- "Which events are for BCA students?"

AI provides answers based on available campus events.

5. Lost & Found System

A digital system to help students report and find lost items.

Students can:

- Add lost item details
- Upload image
- Mention location and date

Students can also view found items and contact administration for verification.

6. Upcoming Events

A dedicated section for campus activities.

Includes:

- Workshops
- Hackathons
- Seminars
- Competitions
- Cultural events

Admin can add:

- Event name
- Date
- Venue
- Description

Students can stay updated easily.

7. Digital Campus Gallery 🏠

A platform to showcase campus memories.

Includes:

- Event photos
- Workshop images
- Student achievements
- College activities

Admin can upload and organize images.

8. Complaint Management System 🛠️

Students can digitally report campus issues.

Examples:

- Classroom problems
- Equipment issues
- Infrastructure complaints

Each complaint contains:

- Problem description
- Location
- Status

Admin can update:

- Pending
- In Progress

- Resolved
